

#CandleOfJustice

Gracious, merciful God of justice, love and peace we thank you for the lives of young people.

We pray for young people across the nation and in particular for the family and community of Dea-John Reid.

We pray that you will continually console them through their grief as they suffer the untimely loss of their dear child.

We pray for their campaign of jury reform and that civic and church systems and institutions will always fulfil their duty to serve and protect all.

Finally, we continue to pray for young people across the nation who have suffered from racially motivated experiences and that society will be a safe and flourishing space where their unique giftings and callings can bless the world.
