Hymns and songs for Education Sunday

Introduction

This selection is provided as a starting point for planning the music you might include in your Education Sunday service. YouTube links are included so that you can quickly listen to the song and in many cases see the lyrics. Some of the hymns may be sung to a number of different tunes.

We know that this is only a small selection from a limited range of traditions. [We encourage you to let us know](#) what songs and hymns you think we should include on Education Sunday, particularly those that might be better-known in your own tradition, so that we can add them to this resource.

If you intend to use any of the videos in worship, please check the copyright advice. It is your responsibility to comply with copyright regulations and to obtain the correct licenses, if needed.
